Sir:

This Amendment is responsive to the outstanding Office Action of April 23, 2004.

In such Office action, claims 1-24, 28, 34-36, 44, 50-54, 58-63, 69-72, and 75-80 were withdrawn from consideration. It is pointed out that claims 28, 34, 35, and 44 were grouped with the product invention elected in Applicant's Response to the Restriction Requirement filed on January 13, 2004. Thus, Applicant respectfully believes that claims 28, 34, 35, and 44 should have been examined. Accordingly, the Examiner is respectfully requested to reconsider the withdrawal of such claims and to determine the patentability of these claims. Applicant has separately argued below that such claims are patentable in view of the grounds of the rejection applied to the other elected product claims.
